GM & T Bank Charitable Foundation
255 Charles Street
Baltimore, MD 21202

Dear GM & T Bank,

First of all, thank you. We appreciate the money you've given us for our Stocks in the Future program greatly. We understand that you don't have money growing on ~~these~~ trees. We know that it took a lot of time, effort and board meetings to make this funding possible.

I'm not just learning about. Thankful for the money, I'm learning lots of valuable information that will surely help me succeed later in life. We're learning about real-world things and situations. I'm learning reading, math and basic life skills that many people don't have. That's why it's an honor to be able to partake in this well-thought out program.

I know Monday is one of the hardest days in our weeks. Even though this is true, I get to look forward to JIF after a rough day. My teacher Mr. Wadmann makes the class fun and enjoyable for us while teaching us important methods for surviving in the stock world, man, it's risky. I now know

about stocks, bonds, mutual funds, savings accounts, inflation, deflation, opportunity cost and investments. If I want to be the next Warren Buffet, I have to start somewhere. I want to thank you all again. This class is a great investment because I know I'm going to get a great return!
