

*I wish I had that knowledge!* is what adults say when they hear about financial life skills. Please help our city students gain the advantage of this program.

-Pat Bernstein

# IMPACT OUR NEXT GENERATION!

**“This program ... is more than just getting money; this class helps you learn about businesses, how businesses can be successful or not.”**  
S.M. – 7th grade at Washington Jesuit Academy

Eleven, twelve and thirteen year old students can absorb FINANCIAL LIFE SKILLS with your help. Participating in *Stocks in the Future* classes produces wise investors with enhanced academic skills, introductory business vocabulary, and insight into stock market trends. Underwriting can transform youngsters into investors both now in school and later in the business world.

**YOU ARE THEIR CRITICAL POWER FORCE.**

**Broker of Success:**

Enable 30 students at ten schools to each earn \$80 through steady school attendance and improved grades. Their

earnings enable the purchase of publicly traded stocks redeemable at high school graduation. **\$2,400**

**Class Investor:**

Guarantee school supplies for a class of 25 students that includes text books, workbooks, \$80 earning potential for each student

and teacher training sessions. **\$1,500**

**Financial Parton:**

Reward the winning class among all schools for January's best attendance competition. This includes a special off-campus trip

to a financially related destination, bus transportation and souvenirs. **\$500**

**Student Investor:**

Underwrite purchase for all 25 students of text book "Growing Money" that ties integrally into the sixth grader curriculum. And it

is a 'take-home present' at year's end. **\$250**

Stocks in the Future offers middle school youngsters a unique learning experience that teaches financial life skills and motivates them to invest in school as well as the stock market. Through the curriculum, developed by Johns Hopkins University, the topic of money combines with academic reinforcements, knowledge of the business world, and incentives to improve attendance and grades. Baltimore City youngsters dominate the school enrollment. Students demonstrate significant investments in school and in business decisions.
